

MCA launched a Friends Mentoring Program to connect Muslim brothers and sisters for support. Many Muslims in contemporary society face emotional and social challenges. These challenges have the capacity to hinder our progress towards selfimprovement and goal achievement. To overcome these challenges it is essential to rush with open arms and embrace our fellow Muslim brothers and sisters.

MCA Friends Mentoring Program has established The Amal Friends Program for Adults and the Fly Friends Program for Youth, to help individuals identify with their peers on all levels of emotional, social, and/or religious concerns.
